

4 COUNTRIES

- ITALY
- FRANCE
- NORTH MACEDONIA
- PORTUGAL

THE PARTNERS

TWO MAIN PRIORITIES

To adequate **school studies** to the job market needs, using training methods which are new, practical and more relevant for the work contest.

To **raise awareness on climate change**, underlining the importance and the role of water.

CORE OF THE PROJECT

A technical **TRAINING COURSE** for **students** attending the last year of vocational schools, combining **theoretical lessons** and **practical activities**, to provide them with specific **professional skills on water resources management**.

4 MODULES:

- River geomorphology
- Cartography and basics of GIS tools
- River ecology
- Alteration of river environments and hints of river rehabilitation

**Co-funded by
the European Union**

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

**The project aims to
create a new
professional profile:
the WATER EXPERT**
